

Curriculum Vitae

Basharat Ahmad Want
Professor
Department of Physics
University of Kashmir – 190006, India

Residential Address
H. No. 26, Barkatlane,
Botashah Mohalla,
Lalbazar, Srinagar, J & K
Email: basharatwant@gmail.com,
bawant@kashmiruniversity.ac.in
Place of Birth: **Srinagar, J & K**

Website : <http://phy.uok.edu.in/Main/ProfilePage.aspx?Profile=1790&P=DrBasharatAhmadWant>

Teaching Experience : 27 years (including post graduate teaching)

Research Experience : 19 years

Qualification:

Ph.D. (Major : Physics, Sub-category: Experimental Solid State Physics), University of Kashmir, India in 2008.

Present Job Position:

Professor of Physics, Department of Physics, University of Kashmir, Srinagar, India.

Past Job Positions:

1. Served as a Lecturer in Physics (on Adhoc basis) in the Higher Education Department, Govt. of Jammu and Kashmir from M a r c h 1996 - October 1999.
2. Assistant professor (permanent) in Physics in Islamia College of Science and Commerce, Srinagar from November 1999 - November 2000.
3. Assistant professor (permanent) of Physics, Higher Education Department, Govt. of Jammu and Kashmir from D e c e m b e r 2000 - June 2010.
4. Associate Professor of Physics, Department of Physics, University of Kashmir, from July 2010 to July 2016.
5. Professor of Physics, Department of Physics, University of Kashmir, from July 2016.
6. Head of the Department of Physics, University of Kashmir from Feb-2021.

Research interest:

- Single crystal growth of Metal Organic Framework with ferroelectric properties .
- Physics of Ferroelectric materials .
- Ferroelectric Ceramics, Multiferroic materials, Magnetic ferrites.
- Synthesis and characterization of BaTiO₃/ Spinel ferrite multiferroic composite materials.
- Processing and characterization of multiferroic thin films.
- Dielectric & Electrical properties of materials.
- Materials for solar cell applications.
- Density functional theory of materials.
- Predicting properties of materials using Density Functional Theory.

Distinctions and Awards:

1. Sultana N. Nahar prize for distinction in Physics teaching (2015), Ohio University, USA

Research Experience:

Ferroelectric and Dielectric Materials: Single crystal growth and characterization of ferroelectric materials based on rare-earth coordination compounds.

PZT and Barium Titanate ceramics and composites for high dielectric constant materials.

Multiferroic properties of ceramic materials based on perovskite and spinel ferrite (cubic structured) materials.

Electronic Structure of double perovskites for solar cell and spintronic applications.

Ph.D. supervision: 7 awarded Ph.D. degrees; and supervising 7 more PhD students.

Research Guidance: (M.Phil./Ph.D.)

Research Projects:

Agency	Title of Project	Period of Support	Total Cost	Remarks
DST- SERB	Investigations on crystal growth and characterization of some ferroelectric rare-earth coordination compounds	June 2013- March 2017	29.81 Lacs	Completed
UGC	Crystal growth by low temperature solution growth method ...	July 2011 - July 2014	9.7 Lacs	Completed
DST	Preparation and characterization of ferroelectric-ferrite composites	May 2016	26.1 Lacs	Completed
SERB	Investigations on Ferroelectric and Optical Properties of some rare earth based metal organic frameworks	DEC 2021	52.7lacs	Ongoing

**PRESENTATIONS IN NATIONAL/INTERNATIONAL
CONFERENCES**

1. X-ray Crystal Structure of Holmium tartrate
National Conference on Advanced Materials & Technology, 24-26 September, 2004. DAV College, Amritsar.
2. Ferroelectric behaviour of some rare earth tartrates
Thirteenth National Seminar on Ferroelectrics and Dielectrics (NSFD-XIII),
23-25 November, 2004, Department of Physics and Astrophysics, University of Delhi
3. Dielectric properties, a.c. conductivity and thermal behaviour of gadolinium tartrate trihydrate crystals, 2nd J & K Science Congress, 25-27 July, 2006, University of Kashmir
4. Dielectric and ferroelectric behaviour of terbium tartrate trihydrate crystals
6th J & K Science Congress, 2-4 Dec, 2010, University of Kashmir
5. Spherulitic Crystallization of rare-earth tartrates in gel medium
International Conference on Nanotechnology and Nano- Materials, 18-21 December 2011.
University of Delhi
6. Dielectric and ferroelectric behaviour of a rare-earth coordination compound: Erbium Tartrate dehydrate, International Conference and Workshop on Nanostructured Ceramics and other Nanomaterials, 13-16 March, 2012. University of Delhi
7. Dielectric characterization of mixed holmium-gadolinium tartrate dihydrate
Recent trends in Materials Science Research, September 3-5, 2012.
National Institute of Technology, Srinagar
8. Crystal growth of some rare-earth fumarates by gel diffusion technique
8th J & K Science Congress, 17-19 Sep, 2012. University of Kashmir
9. Crystallization of holmium octa-molybdate in silica gel and its characterization
9th J & K Science Congress, 1-3, Oct. 2013, University of Kashmir
10. Growth, characterization and dielectric properties of gadolinium fumarate heptahydrate single crystals, 9th J & K Science Congress, 1-3, Oct. 2013, University of Kashmir
11. Growth, characterization and dielectric properties of single crystal terbium tartrate
9th J & K Science Congress, 1-3, Oct. 2013, University of Kashmir
12. Dielectric, ferroelectric and non-linear optical characteristics of a crystalline rare-earth coordination compound: terbium tartrate trihydrate, Frontiers of Materials Science, 2-6 Dec, 2013, International Centre for Materials Science, JNCASR, University of Cambridge and Sheikh Saqr Lab., Bangalore.

13. Dielectric, ferroelectric and non-linear optical behaviour of terbium hydrogen tartrate trihydrate single crystals.
International Conference on Multifunctional materials, structures and applications, 22-24 Dec, 2014, Motilal Nehru National Institute of Technology, Allahabad
14. Ferroelectricity in a hybrid metal organic coordination material National conference on Advances in materials and materials processing 22-23 May, 2015, NIT, Srinagar
15. Ferroelectric and non-linear optical behaviour of terbium tartrate single crystals 11th J & K Science Congress ,12-14 October, 2015, University of Kashmir
16. Ferroelectric transition and dielectric nonlinearity in hydrogen bonded metal organic complex
:[Nd (C₄H₅O₆)(C₄H₄O₆)] [3H₂O]
10th International conference on Advances in Mechanical, Material science, Manufacturing , Automobile, Aerospace Engineering and Applied Physics
7th November, 2015, Krishi Sanskriti, Jawahar Lal Nehru University, New Delhi.
17. Structure, ferroelectric and non-linear optical behaviour of lanthanide based metal-organic framework: [Nd(C₄H₅O₆)(C₄H₄O₆)] [3H₂O]
10th Asian Ferroelectric Meet (AFM 10), 7-11 November, 2016, University of Delhi.
18. Characterization of rare-earth substituted cobalt ferrite using First Order Reversal Curve method. 2nd Global Conference on Applied Physics, Mathematics and Computing (APMC -18) , 25th to 27th July, 2018 , University of Complutense, Madrid , Spain.
