in collaboration with Microbiologists Society, India**

## About the symposium

This is regarding the celebration of national symposium on World Microbiome Day, 2022 by the Centre of Research for Development (CORD), University of Kashmir in collaboration with Microbiologists Society, India. On this eve, the centre seeks to focus attention on the importance of microbes for health of humans, animals, plants, oceans and entire planet.

On the “World Microbiome Day”, global world celebrates achievements in microbiome research as well as the importance of microbiome in human and environmental health. International microbiome researchers and microbiome literate professionals are introduced to the public to raise awareness of the vibrant and diverse world of microbes. The public and industry professionals are invited to share their thoughts and activities with the microbiome community.
